Versatile
garment drying
solutions for
every industry

TS 43 and TS 4 VP are excellent drying cabinets, perfect for rooms where space is limited. The cabinets are 60 cm (23.4 inches) wide. TS 43 E holds 6 kg (13.2 lbs) of garments and TS 4 VP holds 4 kg (8.8 lbs) of garments. They are equipped with an extendible and retracting hanging system which simplifies the loading operation and maximises space utilisation.

Ideal for drying outerwear for commuters or outdoor workers. In TS 43 all controls and electrical components are placed in a pull-out fan package which makes it easy to repair and maintain. TS 4 VP uses refrigerated heat pump technology to negate the need for external venting.
